

It has always been our endeavour to offer you products of the highest quality, value, and aesthetics. In this regard, we appreciate your valuable contributions in terms of market feedback and constructive suggestions.

In an effort to further enhance the brand image and recall value of our vast range of products, we have embarked on an improved approach for our product nomenclature and labeling.

The new product branding will take effect on all orders produced from April 1st, 2008.

Understandably, there will be a period of time, that you may receive supplies consisting of a mix of belts with the “old” and “new” style of labeling. We trust this would not present any major inconvenience. However, if you should have any particular concern or suggestions regarding this implementation, please don't hesitate to contact us at info@pixtrans.com

We appreciate your custom continued support of PIX.

Thank You.
