Final	24/07/2024	2023-24	28-09-2031
Final	26/07/2025	2024-25	30-09-2032

24. The members, whose unclaimed dividends/shares have been transferred to IEPF, may claim the same by making an online application to the IEPF Authority in web Form No. IEPF-5 available on <https://www.mca.gov.in/content/mca/global/en/home.html>. Members may contact Secretarial Department or RTA of the Company for any guidance required for lodging claim for refund of shares and/or dividend from the IEPF Authority.
25. The Register of Directors' and Key Managerial Personnel and their shareholding maintained under Section 170 of the Companies Act, 2013, the Register of contracts or arrangements in which the Directors are interested under Section 189 of the Companies Act, 2013 and all other documents referred to in the Notice will be available for inspection in electronic mode.

**26. Tax Informative(s) on Dividend**

a. Pursuant to Income Tax Act, 2025, dividend income is taxable in the hands of shareholders and the Company is required to deduct tax at source from dividend paid to shareholders at the prescribed rates. For the prescribed rates for various categories and threshold, please refer to the Income Tax Act, 2025 and the amendments thereof. The shareholders are requested to update their PAN with the DP (if shares held in electronic form) and Company / RTA (if shares held in physical form). Further, in case of individual Member, if dividend does not exceed Rs.10,000, no TDS / withholding tax will be deducted.

b. A Resident individual shareholder with PAN and who is not liable to pay income tax can send a yearly declaration in Form 121 along with PAN, on the email, i.e. [cosecretary@pixtrans.com](mailto:cosecretary@pixtrans.com) on or before July 14, 2026. Shareholders are requested to note that in case their PAN is not registered, the tax will be deducted at a higher rate of 20%.

c. As per Section 262 of the Income Tax Act, every person who has been allotted a PAN and who is eligible to obtain Aadhaar, shall be required to link the PAN with Aadhaar. In case of failure to comply to this, the PAN allotted shall be deemed to be invalid/inoperative and tax shall be deducted at the rate of 20% as per the provisions of section 397(2) of the Act. The Company will be using functionality of the Income-tax department for the above purpose. Provisions are effective from July 01, 2023. Shareholders may visit <https://www.incometax.gov.in/jec/foportal/> for FAQ issued by Government on PAN Aadhaar linking.

d. Non-resident shareholders [including Foreign Institutional Investors (FIIs) / Foreign Portfolio Investors (FPIs)] can avail beneficial rates under tax treaty between India and their country of tax residence, subject to providing necessary documents i.e. No Permanent Establishment and Beneficial Ownership Declaration, Tax Residency Certificate, Form 41, any other document which may be required to avail the tax treaty benefits. For this purpose, the shareholder may email the said documents on [cosecretary@pixtrans.com](mailto:cosecretary@pixtrans.com) on or before July 14, 2026.

### KEY SHAREHOLDER UPDATES – FY 2026

---

#### SIMPLIFIED PROCEDURE FOR DUPLICATE SHARE CERTIFICATES

SEBI has simplified the process for issuance of duplicate share certificates through its circular dated December 24, 2025.

##### Key Changes:

- Simplified documentation threshold increased from ₹5 Lakhs to ₹10 Lakhs
- Standardized Affidavit-cum-Indemnity Bond introduced
- Documentation requirements rationalized for securities above ₹10 Lakhs
- No notarization required for cases up to ₹10,000 value

The shareholders may visit the official website of SEBI at [www.sebi.gov.in](http://www.sebi.gov.in) and refer the aforesaid circular HO/38/13/11(3)2025-MIRSD-POD/I/1102/2025 dated December 24, 2025 for more information.

---

#### SPECIAL WINDOW FOR TRANSFER & DEMATERIALISATION OF PHYSICAL SHARES

SEBI has opened another special window from February 05, 2026 to February 04, 2027 for Transfer and Dematerialization of Physical Securities.

##### Eligible Cases:

- Transfer and dematerialization of physical shares bought/sold before April 01, 2019
- Re-lodgement of transfer requests submitted before April 01, 2019 but rejected/returned/not processed

##### Important Points:

- Shares will be transferred only in Demat form after verification.
- Shareholders must submit original share certificates, transfer deeds, proof of purchase, KYC documents and other prescribed forms.

For more details, please refer to the SEBI circular at [www.sebi.gov.in](http://www.sebi.gov.in) or contact our RTA MUFG Intime India Pvt. Ltd. at C-101, Embassy 247, LBS. ---

#### SAKSHAM NIVESHAK – KYC & UNCLAIMED DIVIDEND CAMPAIGN

The IEPF Authority (MCA) has launched the Second 100 Days Campaign – “Saksham Niveshak” to help shareholders update records and avoid transfer of shares/dividends to IEPF.

Shareholders are requested to update:

- PAN
- Nomination details
- Contact information
- Bank account details
- Signature records

##### Why It Matters?

- Unclaimed dividends for consecutive years may lead to transfer of shares to IEPF.
- Updating KYC and claiming pending dividends helps avoid such transfer.

KYC Forms Download: <https://web.in.mpms.mufg.com/KYC-downloads.html>

Shybu Varghese  
Company Secretary**

Dear Valued Shareholders,

At the outset, I trust this communication finds you in the best of health and spirit. The past few months have been trying, to say the least, so I do hope that you are coping well.

The uncertainty that began in 2025 has not only stretched to 2026, but seems to have far surpassed it. Due to the current conflict in West Asia, not only are we experiencing heightened volatility in the prices of raw materials (linked to crude), but their availability also seems to be impacted. To exacerbate matters, the depreciation in the Indian Rupee is also pushing up the price of imports. However, being a net exporter, we are able to offset some of this impact by participating at favourable levels.

Whilst we were able to post growth in FY '25, unfortunately, we were unable to repeat this feat in FY '26. As a Company, we tried our level best to overcome some of the disruption caused by the events that unfolded at home in May '25 as well as the imposition of tariffs on our products by the U.S. We tried to bridge the shortfall by furthering our presence in the domestic market along with the exploration of new geographies internationally. And just when we felt we had turned a corner, the situation in West Asia dampened momentum.

However, I'm pleased to report that we continue to expand our market share at home and fortify our position as the market leader in the industrial segment. This would not be possible without the confidence and belief that our channel partners place on us – for that, I'm forever grateful.

Furthermore, we continue to pare down debt where possible whilst bolstering reserves. This allows us to be better prepared for any eventualities and/or opportunities that come our way. I can confidently state that our Balance Sheet has never looked stronger and all efforts are underway to maintain its strength.

We remain cautiously optimistic for the coming year, and you can be rest assured that my team and I will work tirelessly to deliver the performance that you have now grown accustomed to.

On behalf of the Board of Directors of the Company, I want to thank you for your constant trust and encouragement.

Yours sincerely,

Sd/-  
Amarpal Sethi  
Chairman & Managing Director

This Management Discussion and Analysis Report has been prepared in compliance with Regulation 34 read with Schedule V of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI LODR Regulations"). The following discussion and analysis should be read in conjunction with the Company's financial statements and notes thereto for the financial year ended March 31, 2026.

### Overview of the Economy

India's macroeconomic environment remains relatively robust, though external risks are elevated. Crude oil prices have emerged as the most critical macro variable given their impact on inflation, external balances, currency stability, and corporate profitability. At the same time, India's domestic fundamentals continue to remain resilient. Healthy domestic liquidity, policy support, improving manufacturing momentum, and ongoing structural capex trends continue to provide stability to the broader growth outlook.

### Review of Operations

As expected, FY '26 presented challenges on multiple fronts. At the beginning of the year, Operation Sindoor and its aftermath greatly impacted the sentiment across the country. Subsequently, the additional tariffs levied on Indian exports to the U.S. proved to be another stumbling block for growth. Finally, the current crisis in West Asia continues to pose challenges given that the Strait of Hormuz is the passage for one-fifth of the world's energy supply. Not only is this uncertainty greatly impacting the price of crude and fertilizers, but causing unprecedented depreciation in the INR.

We do believe that the current crisis will continue to cause uncertainty in the short-to-medium term on account of heightened geopolitical, sharp movements in crude oil prices, currency volatility, and evolving global monetary policy expectations. As such, we continue to exercise all precautionary measures to best manage the current situation.

#### a. Industry Structure and Developments

The Company operates in the power transmission rubber belts segment, which forms an integral part of the industrial and automotive value chain. These products are used across diverse sectors including automotive (OEM and replacement), agriculture, industrial machinery, mining, cement, steel, and textiles.

The industry is characterized by the presence of both organized and unorganized players. However, the organized segment continues to gain share owing to increasing quality consciousness, regulatory compliance requirements, and demand for reliable and high-performance products.

#### Key industry developments include:

- Growth in automotive aftermarket driven by increasing vehicle population.
- Rising infrastructure and industrial activities leading to higher demand for industrial belts.
- Technological advancements in product design and materials.
- Increasing export opportunities supported by India's cost competitiveness.
- Shift towards energy-efficient and durable transmission solutions.

#### b. Opportunities and Threats

##### Opportunities

- Expansion in manufacturing and infrastructure sectors.
- Increasing demand for specialized and high-performance belts.
- Growth in export markets.
- Mechanization in agriculture and industrial automation.
- Strong replacement demand in automotive aftermarket.

### Threats

- Volatility in raw material prices (natural rubber, synthetic rubber, petrochemicals).
- Intense competition from domestic and international players.
- Technological obsolescence or substitution risks.
- Foreign exchange fluctuations impacting exports.
- Cyclical nature of end-user industries.
- Geopolitical tensions.

### c. Segment-wise or Product-wise Performance

The Company is engaged in the single segment of V-belts. The broad product categories include:

- V-Belts
- Timing Belts
- Poly-V Belts
- Industrial Belts
- Special Construction Belts

Each product category has contributed in the overall sales performance of the Company for the FY 2026. The financial highlights of the Company are discussed in the Director's Report and in this report as well.

### d. Outlook

The outlook for the Company remains positive in the medium to long term, supported by expected growth in infrastructure, manufacturing, automotive, and agricultural sectors.

The Company continues to focus on:

- Strengthening its market position.
- Increasing presence in export markets.
- Enhancing operational efficiencies and cost management.
- Investing in research & development and product innovation.

### e. Risks and Concerns

The Company has identified the following key risks and concerns which may impact its operations and financial performance:

- Supply chain disruptions.
- Dependence on automotive and industrial sectors.
- Regulatory and environmental compliance risks.

The Company has in place appropriate risk management systems to identify, monitor and mitigate these risks on a continuous basis.

### f. Internal Control Systems and their Adequacy

The Company has adequate internal control systems commensurate with the size and nature of its business. These systems are designed to ensure:

- Orderly and efficient conduct of business.
- Safeguarding of assets.
- Prevention and detection of frauds and errors.
- Accuracy and completeness of accounting records.
- Timely preparation of reliable financial information.

The Company has an internal audit system conducted by independent professionals. The Audit Committee of the Board periodically reviews the internal audit reports and the adequacy and effectiveness of internal control systems.

**CERTIFICATE ON CORPORATE GOVERNANCE**

To  
The Members  
PIX Transmissions Limited  
J-7, MIDC Hingna Road  
Nagpur, Maharashtra-440016

I have examined the compliance of Corporate Governance by PIX Transmissions Limited (“the Company”) for the year ended on March 31, 2026, as stipulated in Regulation 17 to 27 and clauses (b) to (i) of sub-regulation (2) of Regulation 46 and Paragraph C, D, and E of Schedule V of the SEBI Listing Regulations, 2015.

**Management Responsibility**

The compliance of conditions of the Corporate Governance is the responsibility of the Management. The responsibility includes the design, implementation and maintenance of internal control and procedures to ensure compliance with the conditions of the Corporate Governance stipulated in the SEBI Listing Regulations, 2015.

**My Responsibility**

1. My examination was limited to the procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.
2. I have examined the books of account and other relevant records and documents maintained by the Company for the purpose of providing reasonable assurance on the compliance with Corporate Governance requirements of the Company.
3. I have carried out an examination of the relevant records of the Company in accordance with the Guidance Note on Certification of Corporate Governance issued by the Institute of Company Secretaries of India (‘the ICSI’), in so far as applicable for the purpose of this certificate.

In my opinion and to the best of my information and according to my examination of the relevant records and the explanations given to me and the representation made by the Management, I certify that the Company has complied with the conditions of Corporate Governance as stipulated in Regulation 17 to 27 and clauses (b) to (i) of regulation 46(2) and para C and D of Schedule V of the SEBI Listing Regulations, 2015, during the year ended March 31, 2026.

I state that such compliance is neither an assurance as to the future viability of the Company nor of the efficiency or effectiveness with which the management has conducted the affairs of the Company.

7. As we continue on our journey towards being the best-in-class Company within the mechanical power transmissions industry in terms of our sustainability credentials, we stay rooted in our core principles of serving all concerned stakeholders in the best possible manner while nurturing our operating environment.  In the current economic climate, it would be easy to maintain status-quo or change course but that would imply that all the efforts undertaken by us over the past few years would tantamount to nothing.  We continue to harbor the notion that modern consumers demand more from their suppliers rather than just price, quality and delivery. They seek intangibles that deepen their association with the brand and we take it as our responsibility to be front and center with regards to our complete offering. The directive at each and every level across our organization is simple – educate, train and uplift our vendors to the upper echelon in terms of their sustainability practices.

**To the Members of PIX Transmissions Limited  
Report on the Audit of the Standalone Financial Statements****Opinion**

We have audited the accompanying Standalone financial statements of **PIX Transmissions Limited** (“the Company”), which comprise the Balance Sheet as at March 31, 2026, and the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity and Statement of Cash Flows for the year ended on that date, and notes to the Financial Statements, including a summary of material accounting policy information and other explanatory information (“the Financial Statements”).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Financial Statements give the information required by the Companies Act, 2013 (‘Act’) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, (‘Ind AS’) and other accounting principles generally accepted in India, of the State of Affairs of the Company as at March 31, 2026, and its Profit and Other Comprehensive Income, Changes in Equity and its Cash Flows for the year ended on that date.

**Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor’s Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Standalone Financial Statements.

**Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

We have determined that there are no key audit matters to be communicated in our report.

**Information other than the Financial Statements and Auditor’s Report thereon**

The Company’s Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board’s Report including Annexure to Board’s Report, Business Responsibility Report and Report on Corporate governance and Shareholder’s Information but does not include the consolidated financial statement, standalone financial statements and our auditor’s report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **Responsibilities of Management and Those Charged with Governance for the Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the and accounting principles generally accepted in India, including the specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Standalone Financial Statements**

1. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.
2. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
  - Identify and assess the risks of material misstatement of the Standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
  - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are

also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
  - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
  - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
3. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
  4. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
  5. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Report on Other Legal and Regulatory Requirements**

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure "A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
  - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except for the matters stated in paragraph (v) a below on reporting under Rule 11 (g);

c. The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Cash Flows and the Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;

d. In our opinion, the aforesaid financial statements comply with the specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

e. On the basis of the written representations received from the directors as on 31st March 2026, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164 (2) of the Act.

f. With respect to adequacy of the internal financial control over financial reporting of the company and the operating effectiveness of such controls refer our separate report in Annexure B” and

g. With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

i. The Company does not have pending litigation which would impact its financial position.

ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

iii. There has been no delay in transferring the amounts required to be transferred to the Investor Education and Protection Fund by the Company.

iv.(a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

- v. Based on our examination which included test checks, the company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility, and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with. Additionally, the audit trail has been preserved by the Company as per the statutory requirements for record retention for the current year and previous year.
- vi. The final dividend paid by the company during the year in respect of the same declared for the previous year is in accordance with section 123 of the Companies Act 2013 to the extent it applies to the payment of dividend.

The Board of Directors of the Company has proposed a final dividend for the year which is subject to approval of the members at the ensuing Annual General Meeting. The dividend proposed is in accordance with Section 123 of the Act to the extent it applies to dividend. (Refer note 44 to the Standalone financial statements)

3. With respect to the matter to be included in the Auditor's Report under Section 197(16) of the act: In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

**Annexure “B” to the Independent Auditor’s Report of even date on the Standalone financial statements of PIX Transmissions Limited for the year ended March 31, 2026.**

**Report on the Internal Financial Controls with reference to the aforesaid Standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

**Opinion**

We have audited the internal financial controls over financial reporting of **PIX Transmissions Limited** (“the Company”) as of March 31, 2026 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**Management’s Responsibility for Internal Financial Controls**

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditors’ Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

**Meaning of Internal Financial Controls Over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH 2026****1 Corporate Information**

Pix Transmissions Limited was incorporated on July 22, 1981, as a private limited company in the State of Maharashtra, India. The status of Pix Transmissions Limited changed from a Private Limited company to a Public Limited Company effective from September 27, 1989. **PIX Transmissions Limited** completed its initial public offering of its equity shares in India on December 4, 1989. The shares of the Company are listed with BSE Limited and National Stock Exchange of India Limited.

The Company is the leading manufacturer of Belts and related mechanical Power Transmission products in India. The Company has state-of-the-art Belt manufacturing units as well as an ultra-sophisticated, automated Rubber Mixing facility located in Nagpur, India.

The standalone financial statements have been reviewed by the Audit Committee and approved by the Board of Directors in their respective meeting held on May 22, 2026.

**2.a. BASIS OF PREPARATION AND PRESENTATION OF STANDALONE FINANCIAL STATEMENTS****2.a.1 Statement of Compliance with the Indian Accounting Standards (Ind AS)**

The standalone financial statements comply in all material aspects with Ind AS notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015 (as amended)] and other relevant provisions of the Act.

**2.a.2 Historical cost convention**

The financial statements have been prepared on a historical cost basis, except for the following:

- i. certain financial assets and liabilities (including derivative instruments) is measured at fair value
- ii. defined benefit plans – plan assets measured at fair value

**2.a.3 Functional and Presentation Currency**

Items included in the financial statements of the entity are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is entity's functional and presentation currency.

**2.a.4 Use of estimates and judgements**

The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions, which affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis.

**2.a.5 Current/non-current classification**

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

### **2.a.6 Operating Cycle**

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The company has identified twelve months as its operating cycle.

### **2.a.7 Critical estimates and judgements**

#### **(i) Recoverability of trade receivables**

In case of trade receivables, the Company follows the simplified approach permitted by Ind AS 109 – Financial Instruments for recognition of impairment loss allowance. The application of simplified approach does not require the Company to track changes in credit risk. The Company calculates the expected credit losses on trade receivables using a provision matrix based on its historical credit loss experience.

#### **(ii) Useful lives of property, plant, and equipment/intangible assets**

The Company reviews the useful life of property, plant, and equipment/intangible assets at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

#### **(i) Defined benefit plans**

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate; future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

## **2. b. MATERIAL ACCOUNTING POLICIES**

### **2.b.1 Property, plant, and equipment and intangible assets**

Property, plant, and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Freehold land is carried at cost. The cost comprises purchase price, borrowing costs if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price. Borrowing costs directly attributable to acquisition or construction of qualifying PPE is capitalised.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow

to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Borrowing costs directly attributable to acquisition of property, plant and equipment which take substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use. Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets.

An item of property, plant and equipment and any significant part initially recognized is de-recognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the Property, plant and equipment is de-recognized.

Costs of assets not ready for use at the balance sheet date are disclosed under capital work-in-progress.

#### **Depreciation methods, estimated useful lives and residual value**

Depreciation is calculated on straight line basis using the useful lives as prescribed under Schedule II to the Companies Act, 2013. If the management's estimate of the useful life of an item of property, plant, and equipment at the time of acquisition or the remaining useful life on a subsequent review is shorter than the envisaged in the aforesaid schedule, depreciation is provided at a higher rate based on the management's estimate of the useful life/ remaining useful life.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

#### **Intangible assets**

Intangible assets that are acquired by the Company are measured initially at cost. After initial recognition, an intangible asset is carried at its cost less any accumulated amortization and accumulated impairment loss.

Subsequent expenditure is capitalized only when it increases the future economic benefits from the specific asset to which it relates. An intangible asset is derecognized on disposal or when no future economic benefits are expected from its use and disposal.

Losses arising from retirement and gains or losses arising from disposal of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss.

#### **Amortisation methods and periods**

The estimated useful lives of intangible assets and the amortisation period are reviewed at the end of each financial year and the amortisation method is revised to reflect the changed pattern, if any. Computer Software is amortized over the useful life prescribed under Schedule II to the Companies Act, 2013.

**Impairment of non-financial assets**

The Company assesses at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Impairment losses are recognized in the statement of profit and loss. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

When there is indication that an impairment loss recognised for an asset (other than a revalued asset) in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the Statement of Profit and Loss, to the extent the amount was previously charged to the Statement of Profit and Loss.

**2.b.2 Foreign currency translation****Transactions and balances**

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in statement of profit or loss. Non-monetary items denominated in a foreign currency are measured at historical cost and translated at exchange rate prevalent at the date of transaction.

**2.b.3 Financial Instruments**

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments. A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss and ancillary costs related to borrowings) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in Statement of Profit and Loss.

**Classification and Subsequent Measurement: Financial Assets**

The Company classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income ("FVOCI") or fair value through profit or loss ("FVTPL") based on following:

- the entity's business model for managing the financial assets and
- the contractual cash flow characteristics of the financial asset.

**(i) Amortised Cost**

A financial asset shall be classified and measured at amortised cost if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method.

**(ii) Fair Value through other comprehensive income**

A financial asset shall be classified and measured at fair value through OCI if both of the following conditions are met:

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the other comprehensive income (OCI).

**(iii) Fair Value through Profit or Loss**

Fair Value through Profit or Loss is a residual category for financial assets. A financial asset shall be classified and measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through OCI. Financial assets included within the Fair Value through Profit or Loss category are measured at fair value with all changes recognised in the statement of profit and loss.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

**Classification and Subsequent Measurement: Financial liabilities**

Financial liabilities are classified as either financial liabilities at FVTPL or other financial liabilities. All financial liabilities are recognised initially at fair value and, in the case of loans, borrowings, and payables, net of directly attributable transaction costs

**(i) Financial Liabilities at Fair Value through Profit or Loss**

Financial liabilities are classified as at Fair Value through Profit or Loss when the financial liability is held for trading or are designated upon initial recognition as Fair Value through Profit or Loss. Gains or Losses on liabilities held for trading are recognised in the Statement of Profit and Loss.

**(ii) Other Financial Liabilities**

Other financial liabilities (including borrowings and trade and other payables) are subsequently measured at amortised cost using the effective interest method. The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

**Impairment of financial assets**

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. The Company recognises a loss allowance for expected credit losses on financial asset. In case of trade receivables, the Company follows the simplified approach permitted by Ind AS 109 – Financial Instruments for recognition of impairment loss allowance. The application of simplified approach does not require the Company to track changes in credit risk. The Company calculates the expected credit losses on trade receivables using a provision matrix based on its historical credit loss experience.

**Derecognition of financial assets**

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

**Derecognition of financial liabilities**

A financial liability is derecognized when the obligation under the liability is discharged, cancelled, or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

**Equity investment in subsidiaries**

Investment in subsidiaries is carried at cost. Impairment recognized, if any, is reduced from the carrying value.

**Offsetting of financial instruments**

Financial assets and financial liabilities are offset, and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business.

**2.b.4 Derivatives that are not designated as hedges**

Derivatives are only used for economic hedging purposes and not as speculative investments. However, where derivatives do not meet the hedge accounting criteria, they are classified as 'held for trading' for accounting purposes and are accounted for at FVPL. They are presented as current assets or liabilities to the extent they are expected to be settled within 12 months after the end of the reporting period. Financial assets and liabilities are offset, and the net amount is reported in the

balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business.

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. The accounting for subsequent changes in fair value is recognised in profit or loss.

### **2.b.5 Financial liabilities and equity instruments**

#### **Classification as debt or equity**

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

#### **Equity instruments**

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all liabilities. Equity instruments issued by a Company are recognised at the proceeds received.

### **2.b.6 Taxes**

#### **Current income tax**

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years, items that are never taxable or deductible and tax incentives. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

#### **Deferred tax**

Deferred income tax is recognized using the balance sheet approach, deferred tax is recognized on temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

### 2.b.7 Inventories

Inventories are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

**Raw materials:** Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.

**Finished goods and work in progress:** Cost of finished goods and work-in-progress includes the cost of materials, conversion cost, an appropriate share of fixed and variable production overheads and other costs incurred in bringing the inventories to their present location and condition.

**Traded goods:** Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale. The net realizable value of work-in-progress is determined with reference to the selling prices of related finished products. Raw materials and other supplies held for use in production of finished products are not written down below cost except in cases where material prices have declined, and it is estimated that the cost of the finished products will exceed their net realizable value.

### 2.b.8 Revenue recognition

#### Revenue from Operations

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services. Revenue from sale of goods is recognised when the goods are dispatched, and titles have passed. The Company disaggregates Revenue from contracts with customers by geography.

**Dividend income**

Dividend income is recorded when the right to receive payment is established.

**Interest income**

Interest income is recognised using the effective Interest method. For all debt instruments measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR).

**2.b.9 Dividends Paid**

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the Company, on or before the end of the reporting period but not distributed at the end of the reporting period.

**2.b.10 Employee benefits****(i) Short-term obligations**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

**(ii) Other long-term employee benefit obligations**

The earned leave obligations are measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the appropriate market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

**(iii) Post-employment obligations**

The company operates the following post-employment schemes:

- (a) defined benefit plans viz gratuity,
- (b) defined contribution plans viz provident fund.

**Gratuity obligations**

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

**Defined contribution plans**

The Company pays provident fund contributions to approved provident fund trust and publicly administered provident funds. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

**Other long-term employee benefit obligations**

The Company provides for Other Long-Term Benefits in nature of Long-Term Service Award to Executive Directors and certain specified employees which shall become applicable on completion of 15 years of service (vesting condition). It shall be payable on retirement or executive director / employee leaving the Company. These obligations are therefore measured as the present value of expected future payments to be made in respect of services provided up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the appropriate market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

**2.b. 11 Leases**

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

**As a lessee**

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date.

The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant, and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate.

The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Company has elected to apply the requirements of Ind AS 116 Leases to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs
- restoration costs.

Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- amounts expected to be payable by the Company under residual value guarantees
- the exercise price of a purchase option if the Company is reasonably certain to exercise that option, and
- payments of penalties for terminating the lease, if the lease term reflects the group exercising that option.

#### **2.b.12 Provisions, Contingent Liabilities and Contingent Assets**

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources, which can be reliably estimated, will be required to settle such an obligation.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognised in the Statement of Profit and Loss as a finance cost. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

Claims against the Company where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Contingent assets are not recognised in financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognised.

#### **2.b.13 Trade receivables**

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

#### **2.b.14 Trade and other payables**

These amounts represent liabilities for goods and services provided to the company prior to the end of the financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

**2.b.15 Borrowings**

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled, or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

**2.b.16 Borrowing costs**

Borrowing costs are interest and other costs that the Company incurs in connection with the borrowing of funds and is measured with reference to the effective interest rate (EIR) applicable to the respective borrowing.

Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Borrowing costs, allocated to qualifying assets, pertaining to the period from commencement of activities relating to construction / development of the qualifying asset up to the date of capitalisation of such asset are added to the cost of the assets. Capitalisation of borrowing costs is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted.

All other borrowing costs are recognised as an expense in the period which they are incurred.

**2.b.17 Segment Reporting - Identification of Segments**

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Company is engaged in the business of Industrial Rubber Products and there is no reportable primary segment as per Indian Accounting Standard (IND AS 108) 'Segment Reporting'. The Company identified geographical locations as secondary segments. The products of the company are sold both in the domestic & export markets, which are considered different geographical segments.

**2.b.18 Earnings per share****Basic Earnings per share**

Basic earnings per share is calculated by dividing the profit attributable to shareholders of the company by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year.

**Diluted earnings per share**

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to consider the after-income tax effect of interest and other financing costs associated with dilutive potential equity and the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

**2.b.19 Cash and cash equivalents**

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

**2. c. Application of new and amended standards**

The Ministry of Corporate Affairs vide notification dated May 07, 2025 and August 13, 2025 notified the Companies (Indian Accounting Standards) Amendment Rules, 2025 and Companies (Indian Accounting Standards) Second Amendment Rules, 2025, respectively, which amended certain accounting standards (see below), and are effective for annual reporting periods beginning on or after 1 April 2025:

**(i) Ind AS 1 - Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants**

The company classifies liabilities as current or non-current based on its contractual rights at the reporting date. A liability is classified as non-current only when the company has an unconditional right to defer settlement for at least 12 months after the reporting period. Compliance with loan covenants as at the reporting date is considered for classification. Covenants applicable after the reporting date do not affect classification but are disclosed where relevant.

**(i) Ind AS 7 and Ind AS 107 - Supplier Finance Arrangements**

The company may enter into supplier finance arrangements and require additional disclosure of such arrangements. The disclosure requirements in the amendments are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.

**(iii) Amendments to Ind AS 21 - Lack of exchangeability**

The Effects of Changes in Foreign Exchange Rates to specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. The amendments also require disclosure of information that enables users of its financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the entity's financial performance, financial position and cash flows.

These amendments did not have any material impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

**Capital Reserve**

The Company created capital reserve on cancellation/ forfeiture of the Company's own equity instruments. Capital reserve was created in financial year 2008-09.

**Capital Redemption Reserve**

Capital Redemption Reserve is created out of profit available for distribution towards redemption of Preference shares. This reserve can be used for the purpose of issue of Bonus shares.

**General Reserve**

General Reserve is used from time to time to transfer profits from retained earnings for appropriation purposes. As the General Reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the General Reserve will not be reclassified subsequently to statement of profit and loss.

**Amalgamation Reserve**

The amalgamation Reserve was created on amalgamation of Pix Auto Ltd with the Company in financial year 1999-2000.

**Securities Premium**

Securities Premium Reserve represents premium on issue of shares. The reserve will be utilised in accordance with the provisions of the Companies Act, 2013.

**Retained earnings**

The balance in the Retained Earnings primarily represents the surplus after payment of dividend and transfer to reserves.

**30.1 Disclosure as per Indian Accounting Standard - 19 on 'Employee Benefits' Leave Obligations:****Leave Obligations:**

The leave obligations cover the Company's liability for earned leave which are classified as other long-term benefits.

Leave obligations expected to be settled within the next 12 months - Rs.74.15 lakhs (31 March, 2025: Rs.61.80 lakhs)

Leave obligations not expected to be settled within the next 12 months - Rs.247.52 lakhs (31 March, 2025: Rs. 244.65 lakhs)

**Post-employment obligations (Gratuity):**

The Company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. The gratuity plan is unfunded.

**Defined contribution plans:**

The Company also has a certain defined contribution plan. Contributions are made to provident fund in India for employees at the rate of 12% of basic salary as per regulations. The contributions are made to registered provident fund administered by the government. The obligation of the Company is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the period towards defined contribution plan is Rs.211.06 lakhs (31 March 2025 – Rs. 218.87 lakhs).

**Sensitivity Analysis:**

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

**A. Changes in present value of defined benefit obligations** (Amount in lacs)

Particulars	As at 31.03.2026 ₹	As at 31.03.2025 ₹
<b>a) Impact of the change in discount rate</b>		
Present Value of Obligation at the end of the period	2,202.59	1,985.07
Impact due to increase of 1 % (DBO)	2,028.97	1,819.35
Impact due to decrease of 1 % (DBO)	2,401.55	2,176.02
<b>b) Impact of the change in salary increase</b>		
Present Value of Obligation at the end of the period	2,202.59	1,985.07
Impact due to increase of 1 % (DBO)	2,396.34	2,177.99
Impact due to decrease of 1 % (DBO)	2,029.21	1,813.99
<b>c) Impact of the change in withdrawal rate</b>		
Present Value of Obligation at the end of the period	2,202.59	1,985.07
Impact due to increase of 1 % (DBO)	2,209.91	1,982.04
Impact due to decrease of 1 % (DBO)	2,194.33	1,988.35

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

**Risk Exposure:**

Through its defined benefit plan, the Company is exposed to a number of risks, the most significant of which are detailed below:

- 1. Changes in bond yields:** A decrease in bond yields will increase plan liabilities.
- 2. Longevity risk:** The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.
- 3. Salary growth risk:** The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. An increase in the salary of the plan participants will increase the plan's liability.

The accounting classification of each category of financial instrument, their carrying amount and fair value are as follows :-

**Fair Valuation Techniques**

The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The following methods and assumptions were used to estimate the fair values:

- The fair value of investment are based on price quotations at the reporting date.

**Fair Value Hierarchy**

Fair Values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

**(D) Financial Risk Management**

The Company's activities are exposed to variety of financial risks. The key financial risks include market risk, credit risk and liquidity risk. The company's focus is to foresee the unpredictability of financial markets and seek to minimise potential adverse effects on its financial performance. The Board of Directors reviews and approves policies for managing these risks. The risks are governed by appropriate policies and procedures and accordingly financial risks are identified, measured and managed in accordance with the company's policies and risk objectives.

**(i) CREDIT RISK**

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk for trade receivables, cash and cash equivalents, investments, other bank balances, loans and other financial assets. The Company only deals with parties which have good credit rating/ worthiness given by external rating agencies or based on Company's internal assessment.

Credit risk on trade receivables and contract assets are managed by the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed and individual credit limits are defined in accordance with this assessment. Moreover, given the diverse nature of the Company's businesses, trade receivables and contract assets are spread over a number of customers. Single external customer (except for subsidiaries) accounted for 10% or more of the trade receivables in any of the years presented.

For trade receivables, as a practical expedient, the Company computes credit loss allowance based on a provision matrix. The provision matrix is prepared based on historically observed default rates over the expected life of trade receivables and is adjusted for forward-looking estimates.

For Mutual Fund Investments, counterparty risk are in place to limit the amount of credit exposure to any one counterparty. This, therefore, results in diversification of credit risk for Company's mutual fund investments.

The Credit risk on mutual fund investments, cash and cash equivalents, and other bank balances are limited as the counterparties are banks and fund houses with high-credit ratings assigned by credit rating agencies.

The carrying amount of maximum exposure to credit risk. The concentration of credit risk is limited due to the customer base being large and respective financial assets recognised in the financial statements, represents the Company's unrelated. The Company has a total recoverables of INR.1286.66 Lakhs from single external Customer as at 31 March 2026 which is more than 10% of the total trade receivables (31 March, 2025:INR 1253.34).

The Company establishes an allowance for impairment that represents its estimate of incurred losses in respect of trade and other receivables. Receivables from customers are reviewed/evaluated periodically by the management of the company and appropriate provisions are made to the extent recovery there against has been considered to be remote.

**(ii) Liquidity Risk**

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at a reasonable price. The Company's objective is to maintain optimum level of liquidity to meet its cash and collateral requirements at all times. The Company relies on borrowings and internal accruals to meet its fund requirement. The current committed line of credit are sufficient to meet its short to medium term fund requirement. The company manages liquidity risk by maintaining sufficient cash and marketable securities and by having access to funding through an adequate amount of committed credit lines.

**Contractual Maturities of Financial Liabilities** (Amount in lacs ₹)

**(iii) Market Risk**

Market risk is the risk or uncertainty arising from possible market fluctuations resulting in variation in the fair value of future cash flows of a financial instrument. The major components of Market risks are currency risk, interest rate risk and other price risk. Financial instruments affected by market risk includes trade receivables, borrowings, investments and trade and other payables.

**(a) Interest Rate Risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rate. There is nominal amount of interest income but significant interest expenses are incurred by the company on borrowed funds. In order to minimize the interest cost, interest reset options is opted and a regular pursuance is made with financial institutions/commercial banks to lower down the interest rates as per prevailing market trend. The policies is designed to optimise the use of available funds for repayment of loans and other payment obligations so that funds are not remained idle with the company.

The Company's exposure in market risk relating to change in interest rate primarily arises from floating rate borrowing with banks. The Company maintains a portfolio mix of fixed and floating rate borrowings. During the current year, the Company has structured and swapped floating interest rate loan to fixed interest rate loan.

Further there are deposits with banks which are for short term period and are exposed to interest rate risk, falling due for renewal. These deposits are however generally for trade purposes as such do not cause material implication.

**(b) Foreign currency risk**

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's foreign currency borrowings, trade receivables and trade payables.

## INDEPENDENT AUDITOR'S REPORT

To the Members of **PIX Transmissions Limited**  
**Report on the Audit of the Consolidated Financial Statements**

### Opinion

We have audited the accompanying consolidated financial statements of **PIX Transmissions Limited** (hereinafter referred to as the "Holding Company") its subsidiaries ( the Company and its subsidiaries together referred to as "the Group"), which comprise the consolidated Balance Sheet as at March 31, 2026, and the consolidated statement of Profit and Loss (including other comprehensive income), the consolidated statement of cash flows, the consolidated statement of changes in equity for the year then ended, and notes to the consolidated financial statements, including a summary of material accounting policies (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and other accounting principles generally accepted in India of the consolidated state of affairs of the Group as at March 31, 2026, and their consolidated profit (including other comprehensive income), their consolidated cash flows and consolidated changes in equity for the year ended on that date.

### Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by ICAI together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Act and the rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with the provisions of the Companies Act, 2013. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Key Audit Matters

1. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
2. During the course of our audit we have determined that there are no key audit matters to communicate in our report.

### Information Other than the Financial Statements and Auditor's Report Thereon

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the management discussion and analysis, Board's Report including annexure to the Board's Report, Business Responsibility Report, Report on Corporate governance and Shareholder's information but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## **Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements**

The Holding Company's Management and Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements in term of the requirements of the Companies Act, 2013 that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Group in accordance with the Ind AS and accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.

## **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

1. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.
2. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
  - Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
  - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Group has adequate internal financial controls system in place and the operating effectiveness of such controls.
  - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
  - Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
  - Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.
3. We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
  4. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
  5. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### Other Matters

1. The Statement includes the audited financial statements of two subsidiaries (including step-down subsidiaries) whose financial statements, before consolidation adjustments, total assets of Rs. 8,624.39 lakhs as at March 31, 2026, total revenue from operation of Rs. 12,448.49 lakhs for the year ended 31st March 2026, total net profit after tax of Rs. 1,614.96 lakhs for the year ended 31st March 2026, total comprehensive income of Rs. 1,614.96 lakhs for the year ended 31st March 2026, and net cash inflows of Rs. 1,991.07 lakhs for the year ended March 31, 2026, as considered in the consolidated financial statement, which have been audited by their respective independent auditors. The independent auditors' reports on financial statements of these subsidiaries have been furnished to us by the Management and our opinion on the consolidated financial statement, in so far as it relates to the amounts and disclosures included in respect of this subsidiary, is based solely on the report of such independent auditors' and the procedures performed by us are as stated in the "Responsibilities of the Auditors for the Audit of the Consolidated Financial Statement" section of this report.

These subsidiaries are located outside India whose financial statements have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries.

The Holding Company's management has converted the financial statements of such subsidiaries located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Holding Company's management. Our opinion in so far as it relates to the balances and affairs of such subsidiaries located outside India is based on the report of other auditors and the conversion adjustments prepared by the management of the Holding Company and audited by us.

Our opinion on the consolidated financial statements, and our report on other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

### Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report, that:
  - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
  - (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
  - (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
  - (d) In our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.
  - (e) On the basis of the written representations received from the directors of the Holding Company as on 31st March 2026 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary companies, incorporated in India, none of the directors of the Group companies is disqualified as on 31st March, 2026 from being appointed as a director in terms of Section 164 (2) of the Act.
  - (f) With respect to the adequacy of the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiary companies incorporated in India, and the operating effectiveness of such controls, refer to our separate Report in "Annexure B" to this report;
  - (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
    - i. The Group does not have any pending litigations which would impact its financial position.
    - ii. The Group did not have any long-term contracts, including derivative contracts for which there were any material foreseeable losses.
    - iii. There has been no delay in transferring the amounts required to be transferred to the Investor Education and Protection Fund by the Group.

- iv. (a) The respective Managements of the Holding company, its subsidiaries whose financial statements have been audited under the Act has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
  - (b) The respective Managements of the Holding company, its subsidiaries whose financial statements have been audited under the Act has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
  - (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances and the reports of its subsidiaries, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

**Annexure “B” to the Independent Auditor’s Report of even date on the Consolidated financial statements of PIX Transmissions Limited for the year ended 31st March 2026.**

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated financial statements of **PIX Transmissions Limited** (“the Holding Company”) as of and for the year ended March 31, 2026, we have audited the internal financial controls over financial reporting of the Holding company and its subsidiaries, which are companies incorporated in India, as of that date.

**Management’s Responsibility for Internal Financial Controls**

The respective Board of Directors of the Holding Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the “ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditor’s Responsibility**

Our responsibility is to express an opinion on the Holding Company's internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, specified under section 143(10) of the Act, to the extent applicable to an audit of

internal financial controls, both, issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Holding company and its subsidiary companies, which are companies incorporated in India.

### **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion and to the best of our information and according to the explanations given to us, the Holding company and its subsidiary companies, which are incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2026, based on the internal financial control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH 2026****1. CORPORATE INFORMATION**

PIX Transmissions Limited was incorporated on July 22, 1981, as a private limited company in the State of Maharashtra, India. The status of PIX Transmissions Limited changed from a Private Limited company to a Public Limited Company effective from September 27, 1989. PIX Transmissions Limited completed its initial public offering of its equity shares in India on December 4, 1989. The shares of the Company are listed with BSE Limited and National Stock Exchange of India Limited.

The Company has trading subsidiaries in the UK, Germany & Middle East. The Company and its subsidiaries (collectively, 'the Group') is engaged in the business of Belts and related mechanical Power Transmission products.

The consolidated financial statements have been reviewed by the Audit Committee and approved by the Board of Directors in their respective meeting held on May 22, 2026.

**2. a. BASIS OF PREPARATION AND PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS****2.a.1 Statement of Compliance with the Indian Accounting Standards (Ind AS)**

The consolidated financial statements comply in all material aspects with Ind AS notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015 (as amended)] and other relevant provisions of the Act.

**2.a.2 Historical cost convention**

The financial statements have been prepared on a historical cost basis, except for the following:

- i. certain financial assets and liabilities (including derivative instruments) is measured at fair value
- ii. defined benefit plans – plan assets measured at fair value

**2.a.3 Functional and Presentation Currency**

Items included in the financial statements of the group are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is entity's functional and presentation currency.

**2.a.4 Use of estimates and judgements**

The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions, which affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis.

**2.a.5 Basis of Consolidation****Subsidiaries**

Subsidiaries are all entities over which the group has control. The group controls an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the

ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

The group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on March 31.

#### **Business combinations and goodwill**

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date.

#### **2.a.6 Current/non-current classification**

The Group presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or

- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

### **2.a.7 Operating Cycle**

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The group has identified twelve months as its operating cycle.

### **2.a.8 Critical estimates and judgements**

#### **(i) Recoverability of trade receivables**

In case of trade receivables, the Group follows the simplified approach permitted by Ind AS 109 – Financial Instruments for recognition of impairment loss allowance. The application of simplified approach does not require the Group to track changes in credit risk. The Group calculates the expected credit losses on trade receivables using a provision matrix based on its historical credit loss experience.

#### **(ii) Useful lives of property, plant, and equipment/intangible assets**

The Group reviews the useful life of property, plant, and equipment/intangible assets at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

#### **(iii) Defined benefit plans**

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate; future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

## **2.b. MATERIAL ACCOUNTING POLICIES**

### **2.b.1 Property, plant, and equipment and intangible assets**

Property, plant, and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Freehold land is carried at cost. The cost comprises purchase price, borrowing costs if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price. Borrowing costs directly attributable to acquisition or construction of qualifying PPE is capitalised.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Borrowing costs directly attributable to acquisition of property, plant and equipment which take substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use. Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets.

An item of property, plant and equipment and any significant part initially recognized is de-recognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the Property, plant and equipment is de-recognized.

Costs of assets not ready for use at the balance sheet date are disclosed under capital work- in-progress.

#### **Depreciation methods, estimated useful lives and residual value**

Depreciation is calculated on straight line basis using the useful lives as prescribed under Schedule II to the Companies Act, 2013 by the holding company. If the management's estimate of the useful life of an item of property, plant, and equipment at the time of acquisition or the remaining useful life on a subsequent review is shorter than the envisaged in the aforesaid schedule, depreciation is provided at a higher rate based on the management's estimate of the useful life/ remaining useful life.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

#### **Intangible assets**

Intangible assets that are acquired by the Group are measured initially at cost. After initial recognition, an intangible asset is carried at its cost less any accumulated amortization and accumulated impairment loss.

Subsequent expenditure is capitalized only when it increases the future economic benefits from the specific asset to which it relates. An intangible asset is derecognized on disposal or when no future economic benefits are expected from its use and disposal.

Losses arising from retirement and gains or losses arising from disposal of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss.

#### **Amortisation methods and periods**

The estimated useful lives of intangible assets and the amortisation period are reviewed at the end of each financial year and the amortisation method is revised to reflect the changed pattern, if any. Computer Software is amortized over the useful life prescribed under Schedule II to the Companies Act, 2013.

**Impairment of non-financial assets**

The Group assesses at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an assets' or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Impairment losses are recognized in the statement of profit and loss. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

When there is indication that an impairment loss recognised for an asset (other than a revalued asset) in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the Statement of Profit and Loss, to the extent the amount was previously charged to the Statement of Profit and Loss.

**2.b.2 Foreign currency translation****Transactions and balances**

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in statement of profit or loss. Non-monetary items denominated in a foreign currency are measured at historical cost and translated at exchange rate prevalent at the date of transaction.

**Group companies**

The results and financial position of foreign operations that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities are translated at the closing rate at the date of that balance sheet
- income and expenses are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions), and
- all resulting exchange difference are recognised in other comprehensive income.

When a foreign operation is sold, the associated exchange differences are reclassified to profit or loss, as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate.

### 2.b.3 Financial Instruments

Financial assets and financial liabilities are recognised when a Group becomes a party to the contractual provisions of the instruments. A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss and ancillary costs related to borrowings) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in Statement of Profit and Loss.

#### Classification and Subsequent Measurement: Financial Assets

The Group classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income (“FVOCI”) or fair value through profit or loss (“FVTPL”) based on following:

- the entity’s business model for managing the financial assets and
- the contractual cash flow characteristics of the financial asset.

#### (i) Amortised Cost

A financial asset shall be classified and measured at amortised cost if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method.

#### (ii) Fair Value through other comprehensive income

A financial asset shall be classified and measured at fair value through OCI if both of the following conditions are met:

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the other comprehensive income (OCI).

#### iii) Fair Value through Profit or Loss

Fair Value through Profit or Loss is a residual category for financial assets. A financial asset shall be classified and measured at fair value through profit or loss unless it is measured at amortised cost or

at fair value through OCI. Financial assets included within the Fair Value through Profit or Loss category are measured at fair value with all changes recognised in the statement of profit and loss.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

#### **Classification and Subsequent Measurement: Financial liabilities**

Financial liabilities are classified as either financial liabilities at FVTPL or other financial liabilities. All financial liabilities are recognised initially at fair value and, in the case of loans, borrowings, and payables, net of directly attributable transaction costs.

##### **(i) Financial Liabilities at Fair Value through profit and loss**

Financial liabilities are classified as at Fair Value through profit and loss when the financial liability is held for trading or are designated upon initial recognition as Fair Value through profit and loss. Gains or Losses on liabilities held for trading are recognised in the Statement of Profit and Loss.

##### **(ii) Other Financial Liabilities**

Other financial liabilities (including borrowings and trade and other payables) are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

#### **Impairment of financial assets**

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. The Group recognises a loss allowance for expected credit losses on financial asset. In case of trade receivables, the Group follows the simplified approach permitted by Ind AS 109 – Financial Instruments for recognition of impairment loss allowance. The application of simplified approach does not require the Group to track changes in credit risk. The Group calculates the expected credit losses on trade receivables using a provision matrix based on its historical credit loss experience.

#### **Derecognition of financial assets**

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

#### **Derecognition of financial liabilities**

A financial liability is derecognized when the obligation under the liability is discharged, cancelled, or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

#### **Offsetting of financial instruments**

Financial assets and financial liabilities are offset, and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business.

#### **2.b.4 Derivatives that are not designated as hedges**

Derivatives are only used for economic hedging purposes and not as speculative investments. However, where derivatives do not meet the hedge accounting criteria, they are classified as 'held for trading' for accounting purposes and are accounted for at FVPL. They are presented as current assets or liabilities to the extent they are expected to be settled within 12 months after the end of the reporting period. Financial assets and liabilities are offset, and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business.

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. The accounting for subsequent changes in fair value is recognised in profit or loss.

#### **2.b.5 Financial liabilities and equity instruments**

##### **Classification as debt or equity**

Debt and equity instruments issued by the Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

##### **Equity instruments**

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all liabilities. Equity instruments issued by the Group are recognised at the proceeds received.

## 2.b.6 Taxes

### Current income tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years, items that are never taxable or deductible and tax incentives. The Group's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

### Deferred tax

Deferred income tax is recognized using the balance sheet approach, deferred tax is recognized on temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

### 2.b.7 Inventories

Inventories are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

**Raw materials:** cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.

**Finished goods and work in progress:** Cost of finished goods and work-in-progress includes the cost of materials, conversion cost, an appropriate share of fixed and variable production overheads and other costs incurred in bringing the inventories to their present location and condition.

**Traded goods:** cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale. The net realizable value of work-in-progress is determined with reference to the selling prices of related finished products. Raw materials and other supplies held for use in production of finished products are not written down below cost except in cases where material prices have declined, and it is estimated that the cost of the finished products will exceed their net realizable value.

### 2.b.8 Revenue recognition

#### Revenue from operations

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Group expects to receive in exchange for those products or services. Revenue from sale of goods is recognised when the goods are dispatched, and titles have passed. The Group disaggregates Revenue from contracts with customers by geography.

#### Dividend Income

Dividend income is recorded when the right to receive payment is established.

#### Interest income

Interest income is recognised using the effective Interest method. For all debt instruments measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR).

### 2.b.9 Dividends Paid

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the Group, on or before the end of the reporting period but not distributed at the end of the reporting period.

**2.b.10 Employee benefits****(i) Short-term obligations**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

**(ii) Other long-term employee benefit obligations**

The earned leave obligations are measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the appropriate market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

**(iii) Post-employment obligations**

The group operates the following post-employment scheme

- (a) defined benefit plans viz gratuity,
- (b) defined contribution plans viz provident fund.

**Gratuity obligations**

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

**Defined contribution plans**

The Group pays provident fund contributions to approved provident fund trust and publicly administered provident funds. The Group has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the

contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

#### **Other long-term employee benefit obligations**

The Group provides for Other Long-Term Benefits in nature of Long-Term Service Award to Executive Directors and certain specified employees which shall become applicable on completion of 15 years of service (vesting condition). It shall be payable on retirement or executive director / employee leaving the Group. These obligations are therefore measured as the present value of expected future payments to be made in respect of services provided up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the appropriate market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

#### **2.b.11 Leases**

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

##### **As a lessee**

The Group recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date.

The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant, and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Group measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease if that rate can be readily determined. If that rate cannot be readily determined, the Group uses incremental borrowing rate.

The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Group has elected to apply the requirements of Ind AS 116 Leases to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

#### **Right-of-use assets are measured at cost comprising the following:**

- the amount of the initial measurement of lease liability

- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs
- restoration costs.

Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- amounts expected to be payable by the Group under residual value guarantees
- the exercise price of a purchase option if the Group is reasonably certain to exercise that option, and
- payments of penalties for terminating the lease, if the lease term reflects the group exercising that option.

#### **2.b.12 Provisions, Contingent Liabilities and Contingent Assets**

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources, which can be reliably estimated, will be required to settle such an obligation.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognised in the Statement of Profit and Loss as a finance cost. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group.

Claims against the Group where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Contingent assets are not recognised in financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognised.

#### **2.b.13 Trade receivables**

A receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

#### **2.b.14 Trade and other payables**

These amounts represent liabilities for goods and services provided to the group prior to the end of the financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not

due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

#### **2.b.15 Borrowings**

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled, or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the group does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

#### **2.b.16 Borrowing costs**

Borrowing costs are interest and other costs that the Group incurs in connection with the borrowing of funds and is measured with reference to the effective interest rate (EIR) applicable to the respective borrowing.

Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Borrowing costs, allocated to qualifying assets, pertaining to the period from commencement of activities relating to construction / development of the qualifying asset up to the date of capitalisation of such asset are added to the cost of the assets. Capitalisation of borrowing costs is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted.

All other borrowing costs are recognised as an expense in the period which they are incurred.

#### **2.b.17 Segment Reporting - Identification of Segments**

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Group is engaged in the business of Industrial Rubber Products and there is no reportable primary segment as per Indian Accounting Standard (IND AS 108) 'Segment Reporting'.

The Group identified geographical locations as secondary segments. The products of the group are sold both in the domestic & export markets, which are considered different geographical segments.

### **2.b.18 Earnings per share**

#### **Basic earnings per share**

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Group
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year.

#### **Diluted earnings per share**

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after-income tax effect of interest and other financing costs associated with dilutive potential equity
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

### **2.b.19 Cash and cash equivalents**

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

### **2. c. Application of new and amended standards**

The Ministry of Corporate Affairs vide notification dated May 07, 2025 and August 13, 2025 notified the Companies (Indian Accounting Standards) Amendment Rules, 2025 and Companies (Indian Accounting Standards) Second Amendment Rules, 2025, respectively, which amended certain accounting standards (see below), and are effective for annual reporting periods beginning on or after 1 April 2025:

#### **(i) Ind AS 1 - Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants**

The Group classifies liabilities as current or non-current based on its contractual rights at the reporting date. A liability is classified as non-current only when the Group has an unconditional right to defer settlement for at least 12 months after the reporting period. Compliance with loan covenants as at the reporting date is considered for classification. Covenants applicable after the reporting date do not affect classification but are disclosed where relevant.

#### **(ii) Ind AS 7 and Ind AS 107 - Supplier Finance Arrangements**

The Group may enter into supplier finance arrangements and require additional disclosure of such arrangements. The disclosure requirements in the amendments are intended to assist users of

financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.

**(iii) Amendments to Ind AS 21 - Lack of exchangeability**

The Effects of Changes in Foreign Exchange Rates to specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. The amendments also require disclosure of information that enables users of its financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the entity's financial performance, financial position and cash flows.

These amendments did not have any material impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

**Capital Reserve**

The Company created capital reserve on cancellation/ forfeiture of the Company's own equity instruments. Capital reserve was created in financial year 2008-09.

**Capital Redemption Reserve**

Capital Redemption Reserve is created out of profit available for distribution towards redemption of Preference shares. This reserve can be used for the purpose of issue of Bonus shares.

**General Reserve**

General Reserve is used from time to time to transfer profits from retained earnings for appropriation purposes. As the General Reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the General Reserve will not be reclassified subsequently to statement of profit and loss.

**Amalgamation Reserve**

The amalgamation Reserve was created on amalgamation of Pix Auto Ltd with the Company in financial year 1999-2000

**Securities Premium**

Securities Premium Reserve represents premium on issue of shares. The reserve will be utilised in accordance with the provisions of the Companies Act, 2013

**Retained earnings**

The balance in the Retained Earnings primarily represents the surplus after payment of dividend and transfer to reserves.

**Foreign Currency Translation Reserve**

For the purpose of consolidation of subsidiaries with the financial statement of the Company, income and expenses are translated at average rates and the assets and liabilities are stated at closing rate. Use of such different rates for translation gives rise to exchange differences which is accumulated in Foreign Currency Translation Reserve. The movement in this reserve is due to fluctuation in exchange rates of currencies during 2025-26. On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is recognised in the Statement of profit and loss.

**Sensitivity Analysis:**

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

(Amount in lacs ₹)

Particulars	Year ended 31.03.2026	Year ended 31.03.2025
<b>a) Impact of the change in discount rate</b>		
Present Value of Obligation at the end of the period	<b>2,202.59</b>	<b>1,985.07</b>
Impact due to increase of 1 % (DBO)	2,028.97	1,819.35
Impact due to decrease of 1 % (DBO)	2,401.55	2,176.02
<b>b) Impact of the change in salary increase</b>		
Present Value of Obligation at the end of the period	<b>2,202.59</b>	<b>1,985.07</b>
Impact due to increase of 1 % (DBO)	2,396.34	2,177.99
Impact due to decrease of 1 % (DBO)	2,029.21	1,813.99
<b>c) Impact of the change in withdrawal rate</b>

Impact due to increase of 1 % (DBO)	2,209.91	1,982.04
Impact due to decrease of 1 % (DBO)	2,194.33	1,988.35

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

Sensitivities due to mortality & withdrawals are not material & hence impact of change not calculated.

**Risk Exposure:**

**Through its defined benefit plan,** the Company is exposed to a number of risks, the most significant of which are detailed below:

1. Changes in bond yields: A decrease in bond yields will increase plan liabilities
2. Longevity risk: The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.
3. Salary growth risk: The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. An increase in the salary of the plan participants will increase the plan's liability.

The accounting classification of each category of financial instrument, their carrying amount and fair value are as follows :-

**Fair Valuation Techniques**

The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The following methods and assumptions were used to estimate the fair values:

- The fair value of investments are based on price quotations at the reporting date.

**Fair Value Hierarchy**

Fair Values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

**(D) Financial Risk Management**

The Company's activities are exposed to variety of financial risks. The key financial risks include market risk, credit risk and liquidity risk. The company's focus is to foresee the unpredictability of financial markets and seek to minimise potential adverse effects on its financial performance. The Board of Directors reviews and approves policies for managing these risks. The risks are governed by appropriate policies and procedures and accordingly financial risks are identified, measured and managed in accordance with the company's policies and risk objectives.

**(i) CREDIT RISK**

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk for trade receivables, cash and cash equivalents, investments, other bank balances, loans and other financial assets. The Group only deals with parties which have good credit rating/ worthiness given by external rating agencies or based on Company’s internal assessment.

Credit risk on trade receivables and contract assets are managed by the Group’s established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed and individual credit limits are defined in accordance with this assessment. Moreover, given the diverse nature of the Group’s businesses, trade receivables and contract assets are spread over a number of customers. The Group does not have single external customer from whom recoverables is more than 10% of total trade receivable as at 31 March 2026 (31st March 2025: The Group had a single external customer from whom recoverables was more than 10% of total trade receivable).

For trade receivables, as a practical expedient, the Group computes credit loss allowance based on a provision matrix. The provision matrix is prepared based on historically observed default rates over the expected life of trade receivables and is adjusted for forward-looking estimates.

For Mutual Fund Investments, counterparty risk are in place to limit the amount of credit exposure to any one counterparty. This, therefore, results in diversification of credit risk for Group’s mutual fund investments.

The Credit risk on mutual fund investments, cash and cash equivalents, and other bank balances are limited as the counterparties are banks and fund houses with high-credit ratings assigned by credit rating agencies.

The carrying amount of maximum exposure to credit risk. The concentration of credit risk is limited due to the customer base being large and respective financial assets recognised in the financial statements, represents the Group’s unrelated. The Group have no external Customer as at 31 March 2026 which is more than 10% of the total trade receivables (31 March, 2025:1253.34 Lakhs).

The Group establishes an allowance for impairment that represents its estimate of incurred losses in respect of trade and other receivables. Receivables from customers are reviewed/evaluated periodically by the management of each entity of the company and appropriate provisions are made to the extent recovery there against has been considered to be remote.

**(ii) Liquidity Risk**

Liquidity risk is defined as the risk that the Group will not be able to settle or meet its obligations on time or at a reasonable price. The Group's objective is to maintain optimum level of liquidity to meet it's cash and collateral requirements at all times. The Group relies on borrowings and internal accruals to meet its fund requirement. The current committed line of credit are sufficient to meet its short to medium term fund requirement. The Group manages liquidity risk by maintaining sufficient cash and marketable securities and by having access to funding through an adequate amount of committed credit lines.

**(iii) Market Risk**

Market risk is the risk or uncertainty arising from possible market fluctuations resulting in variation in the fair value of future cash flows of a financial instrument. The major components of Market risks are currency risk, interest rate risk and other price risk. Financial instruments affected by market risk includes trade receivables, borrowings, investments and trade and other payables.

**(a) Interest Rate Risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rate. There is nominal amount of interest income but significant interest expenses are incurred by the Group on borrowed funds. In order to minimize the interest cost, interest reset options is opted and a regular pursuance is made with financial institutions/commercial banks to lower down the interest rates as per prevailing market trend. The policies is designed to optimise the use of available funds for repayment of loans and other payment obligations so that funds are not remained idle with the Group.

The Group's exposure in market risk relating to change in interest rate primarily arises from floating rate borrowing with banks. The Group maintains a portfolio mix of fixed and floating rate borrowings. During the current year, the Holding Company has structured and swapped floating interest rate loan to fixed interest rate loan.

Further there are deposits with banks which are for short term period and are exposed to interest rate risk, falling due for renewal. These deposits are however generally for trade purposes as such do not cause material implication.

**(b) Foreign currency risk**

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's foreign currency borrowings, trade receivables and trade payables.

The Group has adopted a comprehensive risk management review system wherein actively engage in forward contracts its foreign exchange exposures within defined parameters through forward contracts. The Group periodically reviews its risk management initiatives and manages this forex risk using derivatives, wherever required, to mitigate or eliminate the risk.

The carrying amount of various unhedged exposures to foreign currency as at the end of the reporting period are as follows:

**Instructions:**

- This Ballot paper is for the members who have not voted through remote e-voting/e-voting facility. A member can opt for only one mode of voting i.e. either through remote e-voting/e-voting or by Ballot paper. If a Member casts votes in both the modes, then vote cast through remote e-voting/e-voting shall prevail and Ballot paper shall be treated as invalid.
- The vote should be cast either in favour or against by putting tick (✓) mark in the column provided for assent or dissent.
- This form should be completed and signed by the Member/Proxy Holder as per the specimen signatures registered with the Company/Depository. In case of joint holding, this form should be completed and signed by the first named member.
- Unsigned, incomplete, improperly or incorrectly tick marked Ballot papers will be rejected. A Ballot paper will also be rejected if it is received torn, defaced or mutilated to an extent which makes it difficult for the Scrutinizer to identify either the member or as to whether the votes are in favour or against or if the signature cannot be verified.
- The decision of Scrutinizer on the validity of the Ballot paper and any other related matter shall be final.
- The Scrutinizer will collate the votes downloaded from the remote e-voting/ e-voting system and votes cast through Ballot paper to declare the final result for each of the Resolutions enumerated above.
- The Results shall be declared by the Chairman within two working days from the conclusion of Annual General Meeting.
- The Results declared along with Scrutinizer's Report, shall be placed on the Company's website <https://www.pixtrans.com/> and communicated to the BSE and NSE Ltd., where the shares of the Company are listed, within 2 working days of the passing of resolutions at AGM.
