

# TORQUE'ING POINTS

Corporate Newsletter | May 2022

Say hello to our  
**BRAND-NEW WEBSITE!**

We are delighted to announce the launch of our revamped Corporate website. Our goal with this new website was to provide a highly user-friendly browsing experience, while further enriching our content related to our products and services. We have also introduced content in the **Italian language** to expand our website reach.

Featuring a modern look, the redesigned website now delivers further streamlined menus, simplified navigation, a responsive layout covering all modern web browsers, as well as

advanced information on our capabilities, especially those related to our solutions design dashboard.

## Reduce, Reuse, and RECYCLE with PIX Belts!

The renewed focus on sustainability has given an even higher impetus to the recycling of waste in recent times. The Recycling process includes stages such as sorting, cleaning, size reduction, separation, and pelletising. PIX Belts are designed to perform under the most demanding conditions and offer a wide range of products for Recycling applications.

**Drive solutions at the click of a button with the new Product Selection Dashboard!**

We're delighted to introduce the PIX **Product Selection Dashboard**, a brand new tool that puts a range of resources at the user's fingertips to arrive at the optimal solution.

The process for selecting specific products is now highly intuitive as it now just involves accessing the required dashboard utility, followed by easy, menu-driven Belt data input to arrive at the final product solution. We have also provided a video tutorial for a step-by-step guide on how to use this powerful tool.

### **Ease of Access:**

Please click on the URL <https://www.pixtrans.com> to access the product selection dashboard.

*(For a better user experience, we recommend using the most recent versions of Chrome, Safari, Firefox, or Microsoft Edge)*
