POWER-ful solutions from PIX!

We provide a variety of power transmission solutions to meet the stringent demands of the Power Plant industry, including applications related to Boiler Fans, ID Fans, Coal Crushers, High-Pressure Pumps, and Compressors, among other special applications in this space.

Our Belts are engineered to allow long service life with enhanced ability to withstand the challenging conditions prevalent at power-generation facilities.

PIX, a globally trusted brand, manufactures a wide range of high-quality mechanical power transmission Belts, incorporating state-of-the-art, reliable Belt technology to withstand the challenging working conditions in Power Plants.
